

XL POWER BOOSTER

XL 100 CHDG featuring XL 42 Power Booster (2 Axle)

YOUR SOLUTIONS-BASED HAULING PARTNER

XL 42 PMB

TRANSPORT ADVANTAGE

The XL Power Boosters are capable of lifting the Flip Axle **completely off the ground**. This capability **decreases turning radius**, allows the trailer to **go in reverse** and allows you to **avoid obstacles** or traverse hills more effectively.

XL 60 PMB

SUPERIOR VERSATILITY

XL Power Boosters are designed to **fit with any XL trailer**. The custom design is built to be retrofitted to existing trailers or mated with a new XL trailer, there is no need to buy a new Flip Axle.

XL 42 PMB chart and gauge

UNMATCHED EFFICIENCY

The XL Power Booster boasts a **hydraulic system** which helps scale the load over the axles more evenly. It eliminates the **need for shims** and allows you to adjust the weight on the booster axle with a chart and gauge.

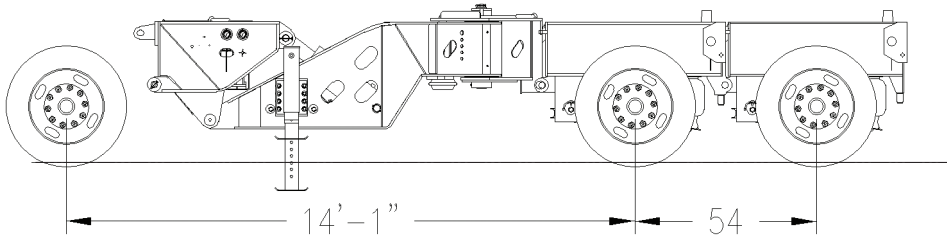

BUILT WITH YOU IN MIND

- Nitrogen gas in accumulators reduces stress through the Power Booster due to uneven terrain
- Lifting lugs hold weight of Booster and Flip axle when lifting off the ground, eliminating tail channel bend.
- Add an XL Power Booster to your XL Multi-Axle set-up for additional capacity
- All XL Specialized Trailers' products go through the new, premium paint process. XL paint includes a **full 1 year warranty**.
- Always striving to surpass market standards, all XL Specialized Trailers' products feature a **5 year structural warranty**.
