

FEATURES

- Galvanized finish extends trailer life up to three times that of non-galvanized trailers
- Fully submerged in hot zinc to create durable galvanized finish over every inch of the trailer
- 18" loaded deck height with 6" ground clearance
- Lockable toolbox in the gooseneck with light and chain rack
- Rear is reinforced for flip axle

SUPERIOR CORROSION RESISTANCE

Galvanizing protects your trailer from corrosion, enabling it to withstand harsh weather and road conditions. Galvanizing also provides additional surface strength for excellent abrasion resistance. Scratches will self-repair to seal out the elements with little maintenance. With a base weight of only 15,600 pounds, the XL galvanized 80 MFG does not sacrifice hauling capacity for added durability.

VERSATILE HAULING CAPABILITY

Manual ride height control and double donuts allow the main deck height to vary 1.5 inches in the wheel area and 1.5 inches at the neck to suit drivers' needs over varying terrains. The XL MFG deck is fully equipped for versatile hauling, with 14 half-inch chain drops per side, 8 bent d-rings per side, and swingout outrigger brackets on 24-inch centers. The rugged Apitong decking stands up to years of wear and tear.

DESIGNED FOR YOU. BUILT TO LAST.
